

CALL FOR ABSTRACTS

We are thrilled to announce the call for abstracts for the 11th International Symposium on Biomolecular Archaeology (ISBA 11), hosted in the vibrant city of Turin! We welcome submissions from researchers who answer critical questions about the past using biomolecular and geochemical approaches (isotopes, lipids and metabolites, proteins, and DNA). ISBA 11 aims to spotlight interdisciplinary research where results are clear, robust, and impactful. Abstracts will be selected based on scientific excellence, as well as our commitment to equality, diversity, and inclusion. Join us in Turin and contribute to advancing biomolecular archaeology in a dynamic setting!

Abstract submission opens: November 15, 2024

Abstract submission deadline: January 20, 2025
